

# Educational Research Data Request Process

The following process describes the steps taken by the Office of Data Analysis and Strategy at Brody School of Medicine when a researcher or project team request medical education data for the purposes of research or quality improvement projects (non-operational).

<sup>1</sup>Written study protocol includes project background, description of data to be collected, and description of how data will be analyzed.

<sup>2</sup>TeamDynamix - <https://ecu.teamdynamix.com/TDClient/1409/Portal/Requests/ServiceDet?ID=31555>

<sup>3</sup>Storage and data management to be done via PirateDrive, OneDrive, and/or SharePoint through Microsoft Teams.
