

## **First Annual Brody Medical Education Day**

**Wednesday, April 22<sup>nd</sup>**

**12:00-5:00 pm**

**East Carolina Heart Institute**

The First Annual Brody Medical Education Day will celebrate Scholarship and Innovation in the continuum of medical education, and offers an excellent opportunity to join a growing community of educators, leaders, scholars, and learners to promote exciting changes in medical education. Poster and podium presentations will provide the opportunity to learn more about ongoing educational activities at the Brody School of Medicine.

The goals of Medical Education Day include:

- Provide a forum for sharing educational innovations in curriculum and teaching, educational research and leadership related to medical education.
- Enhance knowledge and understanding of new approaches in medical education across the US.
- Build a network of faculty, staff and students interested in promoting educational excellence.

**We are seeking abstract submissions in the categories listed below:**

- Enduring Curricular Materials: New or revised curricula, independent learning activities, online media, teaching/training materials, simulation, etc.
- Educational Research: Must include presentation of complete or partial results that demonstrate the effectiveness (or lack of effectiveness) of an educational intervention.
- Learner Assessment: New or novel OSCEs, clinical evaluation tools, or simulation assessments.
- Innovations: new or novel ideas not commonly utilized in medical education. These may include technology such as apps, new programs or innovative task trainers.

Abstracts should include the following information:

- Title
- Authors with affiliations
- Idea
- Submission Category
- Rationale or Need
- Methods or Description
- Results, if Available
- Evaluation Plan
- Potential Impact or Lesson Learned
