LINC Scholars Program

Class of 2020
We’ve come a long way from where we began...
LINC has enhanced my medical school experience by providing extra learning opportunities regarding patient safety, quality, and leadership. Best of all, it has given me life-long friends, an excellent mentor, and the skills to become a collaborative team-member throughout my career as a physician.

Allison Williams
“Leadership is possible in all different ways and in all different areas of life. Whether it is with friends or family, I expect them to set a great example for me, and hopefully I will do the same for them. And that is all part of being a leader.” - Steve Nash
To my entire LINC family: I love you
LINC has helped me explore my passion for Quality Improvement, Patient Safety, Leadership and Interprofessionalism. I can’t wait to apply what I have learned as a LINC Scholar to my residency training and beyond and work as a collaborative team player! It has also given me lifelong mentors and friends along the way!
Sam Curtis

“Teamwork is the ability to work together toward a common vision. The ability to direct individual accomplishments toward organizational objections. It is the fuel that allows common people to attain uncommon results.”
- Andrew Carnegie

“The people that you work with are, when you get down to it, your very best friends.”
- Michael Scott

Find joy in what you do and always put the patient first!
LINC has equipped me with the tools to address health system problems and lead change to reduce errors and improve patient outcomes. It has allowed me to understand various leadership styles to construct efficient teams to construct PDSA cycles. I am honored to have participated in the program as it has sharpened my leadership skills and given me friends I know I’ll have for life.
LINC offered the experience and mentorship I needed to gain confidence in medical research and administration.

The day we found out we were a pretty good team
Thank you to my LINC mentors and peers who have allowed me to explore healthcare from a different perspective and continuously grow as a student and future physician.
Chantel Morey

I am extremely thankful for the LINC program, not just for surrounding me with great people, but also for broadening my view of what I can do and be as a physician and inspiring me to make an impact as a leader in this ever-changing healthcare system.
Goodbye, my friends. Cannot wait to see you again.
